The practice at Heart & Vascular Specialists DFW wasn't built in a board room. It was built on a shared philosophy.

OUR JOURNEY TO YOU

With more than 20 years of combined experience in cardiology, Dr. Mohammad Alasaad and Dr. Usman Hashmi both trained at Henry Ford St. John Hospital in Detroit. They later practiced separately before reconnecting in Dallas-Fort Worth. Mentored by leading cardiologists, they embraced a clear mission: Always put the patient first.

Two years ago, while working at a private equity backed cardiology practice in DFW, they realized that to truly honor that philosophy, they needed to build something more personal. At Heart & Vascular Specialists DFW, Drs. Hashmi and Alasaad believe high-quality heart care should revolve around your life, not a corporate bottom line

PHYSICIAN-LED, PATIENT-FIRST CARE

Each visit is guided by highly experienced, multi-board certified cardiologists, not mid-level providers. Patients benefit from direct access to board certified cardiologists who take time to understand symptoms and develop personalized care plans.

Independent Private Practice: The practice is not affiliated with any single hospital system and has no association with private equity or insurance companies.

Patient's Choice: Whether it is the facility closest to your home or where you feel most comfortable, Drs. Alasaad and Hashmi provide care within the DFW hospital system you choose.

COMPREHENSIVE, COMPASSIONATE APPROACH

Their physicians and staff focus on prevention, early detection, and management of heart and vascular conditions. Care extends beyond immediate

symptoms to uncover underlying causes and support long-term heart health.

COMMUNITY-FOCUSED PRACTICE

Locally owned and operated, the practice is committed to the health of Flower Mound and the DFW community. Patients receive attentive care in a comfortable, welcoming environment.

COMPREHENSIVE HEART & VASCULAR SERVICES

Heart & Vascular Specialists DFW offers cardiac and vascular care in an outpatient setting. Services include:

In-Office Diagnostics

- EKG/arrhythmia clinic
- Nuclear and exercise stress testing
- Echocardiography
- Carotid and peripheral vascular ultrasound
- Ankle-Brachial Index testing

Advanced Procedures and Imaging

- CT coronary imaging
- Cardiac MRI
- Interventional procedures such as angioplasty, stenting, and catheterization for cardiac and vascular disease

Patients with chest pain, palpitations, shortness of breath, leg pain, or foot ulcers receive thorough evaluation and timely care. Drs. Alasaad and Hashmi combine technical skill with a personal connection, ensuring patients feel understood and supported.

WHY PERSONALIZED CARDIAC CARE MATTERS

Heart disease remains a leading cause of death in the United States. Early detection and individualized care are essential. Heart & Vascular Specialists DFW combines medical expertise with a patient-first approach, making heart care approachable, effective, and reassuring.

YOUR HEART DESERVES FOCUSED ATTENTION

Your heart deserves more than a routine check-up. At Heart & Vascular Specialists DFW, expert care and strong patient relationships ensure your heart is healthy and protected for the future.

Schedule your appointment today to experience compassionate, personalized cardiology care. Visit HeartAndVascularDFW.com or call (972) 430-8555 to learn more about the services and meet the team dedicated to your heart health.
